

# **Motion to improve the accessibility and quality of food**

**Proposer:** Kunal Shah (2054163)

**Seconders:** Matthew Knight (2007659)

## **The society notes:**

1. Currently, the University of Warwick Computing Society (UWCS) has spent over 2,000 GBP on purchasing pizza and other foodstuffs to give to its members during events.
2. Currently, 18% of our executive members are non-meat eaters.
3. The types of vegetarian and vegan pizzas bought are often simple margherita or with basic vegetables.

## **The society believes:**

1. A greater selection of vegan and vegetarian food should be considered when ordering food using the society's money.
2. While a staple of many meals, margherita pizza presents a lack of choice in pizza options for those who do not eat meat.

## **The society resolves:**

1. When purchasing food, a consideration should be made to ensure at least one substantial option is present that is suitable for vegans (and by definition also vegetarians).
2. The pizza clause: Where possible, in addition to margherita, executive members of UWCS should purchase vegan as well as vegetable topped pizzas.
3. Mandate the inclusivity officer to ensure that purchases are made in accordance with this motion.
